

## LRP vision and objectives

- Maximise the economic and social value of the new railway to the local area by using it as the stimulus to improve and integrate bus and active travel connectivity (as outlined in the Levenmouth Sustainable Travel Study 2019) and open the local communities of the wider Levenmouth area (Leven, Methil, Buckhaven, Kennoway, Balcurvie, Muiredge, Windygates) as places to live, work, visit, learn play and grow.
- Develop initiatives and projects of an economic and social nature to build on the railway investment led opportunity now presented to deliver sustainable and inclusive growth.
- Integrate focus and spend across the Local Outcome Improvement Plan, Area Community Outcome Improvement Plan, related and separate programme outcomes within the same geography of Fife.

## LRP themes and outcomes

Inclusive jobs and growth	Thriving places	Community led services	Opportunities for all
Increased local opportunities for skills development and training.	Improvements in transport connectivity (walking, cycling, bus and rail).	Develop and support community leadership in all forms.	Improved local services for the young, old and vulnerable in the community. (Easy access for all).
Tourism and leisure employment opportunities.	Town centre public realm improvements.	Promote and support community asset transfer, where possible.	Family and adult learning opportunities.
Ensuring a local dividend from the energy park and other large-scale projects.	Maximising the quality of the built and natural environment.	Increased use of participatory budget approaches.	Targeted ant-poverty interventions.
	Targeted action on anti-social behaviour issues.	Increased volunteering opportunities.	Improve health outcomes.
	Adapt to the effects of climate change whilst helping to deliver our net-zero target.
